

| Option items

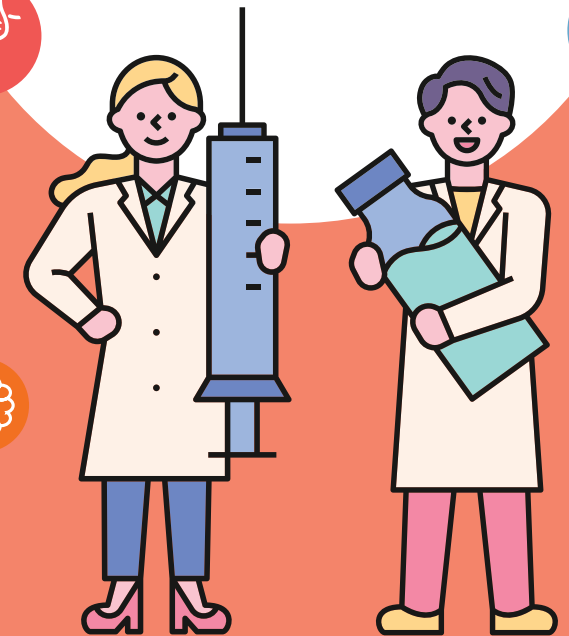

Item	Details	Price
Ultrasound	Treadmill test	₩100,000
	Pelvic ultrasound	₩130,000
	Carotid doppler ultrasound	₩130,000
	Thyroid ultrasound	₩150,000
	Trans-rectal prostate ultrasound	₩170,000
	Breast ultrasound	₩190,000
	Echocardiography	₩230,000
PET-CT	Whole body & Brain PET-CT	₩1,250,000
	Whole body PET-CT	₩900,000
CT/MRI	Low-dose lung CT	₩200,000
	Chest CT, NE	₩200,000
	C-Spine CT(NE)	₩250,000
	Cardiac CT	₩450,000
	Brain CT, NE	₩200,000
	Shoulder MRI	₩700,000
	Hip joint MRI, NE	₩700,000
	C-spine MRI, NE	₩700,000
	L-S spine MRI, NE	₩700,000
	Whole Spine MRI, CE	₩1,100,000
	Brain MRI, CE	₩800,000
	Brain MRI, NE + MRA	₩1,100,000
	Brain MRI, CE + MRA	₩1,300,000
	Coronary Angiography	₩1,400,000
	4-Vessel Angiography	₩2,000,000
Others	Bone densitometry	₩100,000
	Examination HPV(human pappiloma virus)	₩100,000
Special DNA test	Pulse wave velocity	₩80,000
	Colonoscopy(sedative)	₩280,000
	Telomere test	₩275,000
	OAB (Amyloid-β Oligomer)	₩165,000
Gene-Care	₩1,100,000	

| Diseases related to each item |

Items	Description	Disease
Endoscopy	Gastroscope(sedative)	Gastric cancer, esophageal cancer, gastritis, esophagitis
	Colonoscopy(sedative)	Colorectal cancer, colitis
Abdominal ultrasound	Liver	Liver cancer, hepatitis, fatty liver, cirrhosis
	Kidney	Kidney cancer, nephritis, kidney stones
	Pancreas	Pancreatic cancer, pancreatitis
	Spleen	Spleen cancer, splenomegaly
	Gallbladder	Gallbladder cancer, gallstones, cholecystitis
Osteoporosis	Bond density	Osteoporosis, osteopenia
Circulatory system	EKG	Arrhythmias, cardiac hypertrophy, other heart diseases
	Blood pressure	Hypertension, hypotension, tachycardia, bradycardia
Ophthalmic exam	Eyesight	Myopia, farsightedness, astigmatism
	Intraocular pressure	Cataract, glaucoma
Ears	Fundus	Changes in blood vessels
	Hearing test	Hearing loss, hearing disorder
Obesity	Obesity level	Body fat mass, muscle mass, obesity
	Anthropometry	Weight, height
Urine	Urine test	Proteinuria, occult blood
Complete Blood Cell Count	11 species	Blood cell, white blood cell, platelet status
	Liver function	Body protein, immune disease, jaundice, liver cirrhosis, biliary tract disease, pancreatic disease, bone disease, other liver diseases
Metabolic Panel (Blood test)	Kidney function	Renal failure, glomerulonephritis, dehydration, muscle disease, gouty arthritis, uric acidemia, other kidney diseases
	Pancreas function	Pancreatitis, biliary obstruction, sialadenitis
Circulatory system	Blood sugar	Diabetes, glycated hemoglobin
	Circulatory system	Hyperlipidemia, total cholesterol concentration, arteriosclerosis, myocardial infarction, ischemic heart disease
Sexually transmitted disease	Inflammation	Syphilis, HPV
	Inflammation	Infectious diseases, inflammatory disease
Electrolyte	Electrolyte	Calcium, chlorine, phosphorus, potassium, sodium
	Anemia	Iron concentration in the blood, iron deficiency anemia
Tumor markers	Tumor markers	Cancer(liver, testicle, colon, stomach, pancreas, biliary tract, leukemia, prostate, ovarian, uterine, lung, esophagus, breast), various inflammations
	Hepatitis	Hepatitis A, B, C virus infection and antibody formation
Immunological test	Thyroid	Hypothyroidism, hyperthyroidism
	Vitamin D	Osteoporosis, osteopenia, skin aging, immunity

Health Checkup Programs

Basic Program

Division	Item	Details
 <p>Man (₩530,000)</p>	Questionnaire	Fulfil a questionnaire
	Stomach	Gastroscope(sedative)
	Abdomen	Abdominal ultrasound(liver, bile duct, gallbladder, pancreas, kidney, spleen)
	Anthropometry	height, weight, blood pressure, pulse, waist measurement
	Obesity level	Body mass index (BMI), body fat percentage, abdomininal fat percentage, visceral fat, muscle mass, biological age, total body fluid
	Heart	Blood pressure, Chest X-ray, Electrocardiogram
	Eyes	Examination of vision, intraocular pressure, fundus, refraction
	Ears	Audiometry
	Lung	Pulmonary function test
	Urine	Proteinuria, hemocult test
	Complete Blood Cell Count	Anemia, white blood cells, red blood cells, etc.
	Metabolic Panel (Blood test)	Blood type, diabetes, electrolyte, lipid, gout, function(kidney, liver, thyroid), Syphilis, HIV infection
	Immunological test	Hepatitis(A, B, C), ESR(erythrocyte sedimentation rate), Vitamin D, tumor markers(liver cancer, colorectal cancer, pancreatic cancer, ovarian caner, etc.)

Executive program

Item	Details
<p>Man (₩1,400,000)</p>	Bone densitometry
	Thyroid ultrasound
	Prostate ultrasound
	Low-dose lung CT
	Abdominal pelvic CT
	Colonoscopy(sedative)

Premium program

Item	Details
<p>Man (₩2,000,000)</p>	Carotid ultrasound
	Echocardiography
	Pulse wave velocity

Woman
(₩580,000)

Questionnaire	Fulfil a questionnaire
Stomach	Gastroscope(sedative)
Abdomen	Abdominal ultrasound (liver, bile duct, gallbladder, pancreas, kidney, spleen)
Anthropometry	height, weight, blood pressure, pulse, waist measurement
Obesity level	Body mass index (BMI), body fat percentage, abdomininal fat percentage, visceral fat, muscle mass, biological age, total body fluid
Heart	Blood pressure, Chest X-ray, Electrocardiogram
Eyes	Examination of vision, intraocular pressure, fundus, refraction
Ears	Audiometry
Lung	Pulmonary function test
Urine	Proteinuria, hemocult test
For female	PAP smear
	Mamography
	Colposcopy, leukorrhea
Complete Blood Cell Count	Anemia, white blood cells, red blood cells, etc.
Metabolic Panel (Blood test)	Blood type, diabetes, electrolyte, lipid, gout, function(kidney, liver, thyroid), Syphilis, HIV infection
Immunological test	Hepatitis(A, B, C), ESR(erythrocyte sedimentation rate), Vitamin D, tumor markers(liver cancer, colorectal cancer, pancreatic cancer, ovarian caner, etc.)

<p>Woman (₩1,500,000)</p>	Bone densitometry
	Thyroid ultrasound
	Breast ultrasound
	Pelvic ultrasound
	Low-dose lung CT
	Abdominal pelvic CT
	Colonoscopy(sedative)
	HPV test

<p>Woman (₩2,000,000)</p>	Carotid ultrasound
	Echocardiography
	Pulse wave velocity
